Restoration, craftsmanship and finishing; joinery restoration and production.

Valdis Koks

RERE BŪVE Chairman of the Board

“Everything is doable. The RERE BŪVE team of professionals have implemented large-scale and technologically difficult projects on the national and European level.

Our specialists have constructed buildings exceeding 40,000 m², preserved the world heritage in Egypt as well as restored and reconstructed historical buildings in Latvia.”

Construction, reconstruction and restoration

- Full-cycle construction.
- Reconstruction and restoration.
- Implementation of Design & Build projects.
- Construction consulting.

Infrastructure and environment projects

Vjačeslavs Voropajevs

RERE VIDE Chairman of the Board

Construction and reconstruction
of motorways, streets, squares and
other infrastructure objects.

Water management and
communication networks project
management.

Improvement of territories and
environment improvement works.

Quality, safety and risk management
of environmental projects.

*“The remarkable and professional
RERE VIDE specialists of
superb experience have been
the first who have implemented
the singular project of a
nanofiltration water treatment
plant; we are also one of the
few performing construction of
utility networks at a great depth
below the groundwater level. We
implement road construction
works on the main streets of the
city without interrupting traffic.”*

RESTORATION/ RECONSTRUCTION

RIGA CASTLE / 2015

Official residence of the President of Latvia

Reconstruction of Riga Castle premises comprised both functional and artistic reconstruction in all out of 8959.2 m². Reconstruction itself involved reinforcement of the basic support structures and foundations, including renovation of the interior finish.

The reconstruction and restoration within the Chancellery of the President, renovation of the office of the President, meeting rooms, press rooms and representation rooms. Many rooms have been restored to the historic image, applying modern functionality and quality.

Significant work has been involved in the reconstruction of four of the decorated halls - Festival Hall, White Hall, Ambassadors' Accreditation Hall and the Hall of Coats of Arms. Renovation of the premises involved restoration of wall paintings, furniture, wooden interior elements and chandeliers. The works in the White Hall were related to reconstruction of the structural elements and finish - reinforcement of the roof structures and structural beams. Restoration of the hall involved restoration of the gilding (68 sqm of the wall and ceiling area), 28 scagliola columns and pilasters in the Ambassadors' Accreditation Hall and full restoration of 1929 national romanticism wall and ceiling paintings by A. Cīrulis. Works in the Hall of Coats of Arms involved establishment of 76 coats of arms of towns and 4 regional coats of arms; the interior design of the hall was supplemented by furniture that was restored and newly produced based on the initial design. The Banquet Hall also exhibits 10 large-sized paintings in gypsum frames describing various periods of the history of Latvia.

LATVIAN NATIONAL MUSEUM OF ARTS / 2015
